

microtubule-based movement
 cilium assembly
 respiratory gaseous exchange by respiratory system
 epithelial cilium movement involved in extracellular fluid movement
 microtubule bundle formation
 sperm flagellum assembly
 cilium movement
 cilium or flagellum-dependent cell motility
 motile cilium assembly
 cilium organization
 sperm axoneme assembly
 respiratory system process
 cilium-dependent cell motility
 extracellular transport
 cilium movement involved in cerebrospinal fluid circulation
 germ cell development
 flagellated sperm motility
 sperm motility
 mucociliary clearance
 spermatid differentiation
 spermatid development
 cellular process involved in reproduction in multicellular organism

number of genes

p.adjust

extracellular structure organization
